Manufactured Gases

## WHO ARE WE?

Neal Systems provides solutions to make industrial plants and products more safe, reliable, and efficient. We also are representatives and distributors for many vendors. Our territory hits all the states in the mid-Atlantic region and nearby. For some of our vendors, we even distribute nationwide.

## OUR MISSION

To go beyond the traditional customer/vendor relationship and become true partners with our customers, ensuring that we can be counted on to provide the best customer service with product/system solutions that feature superior technology and a competitive edge.
