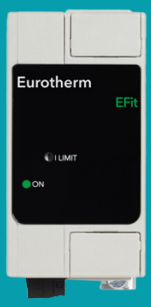
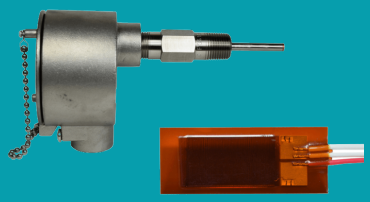
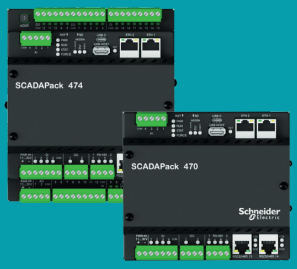
Gas & Liquid Analyzers

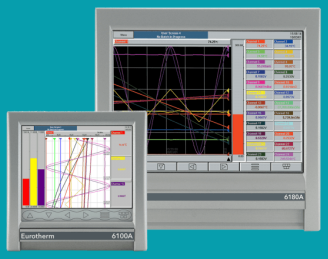
Temperature: Heaters, Controls, Sensors and Transmitters





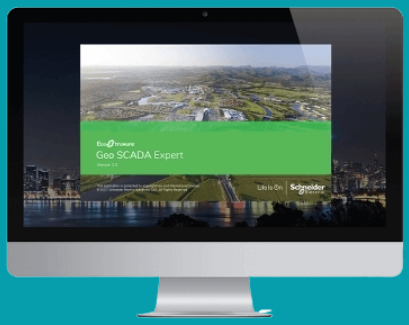
Data Acquisition: Local and Cloud

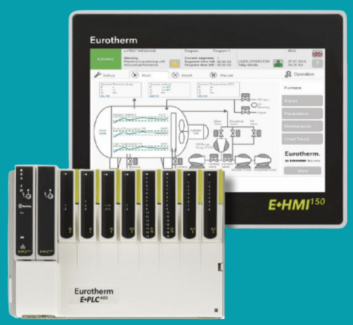




Industrial Wireless, Cybersecurity, and Networking

SCADA & Visualization





Services and Solutions

Calibrations

Our team of service technicians have experience calibrating a range of equipment. All calibrations are done via a tablet with certificates being generated electronically and immediately. All information is stored securely in the cloud with full customer access.

Same Day Shipment

For an annual fee, a customer can buy into the full guaranteed stock list with the knowledge that NSI will ship the same day if requested before 2pm.

24/7 Emergency Callout

NSI has a range of unscheduled plans. All service plans get a dedicated telephone number that rings through directly to the service department during work hours and the on call service tech during off hours.

Preventative Maintenance

we can perform a range of preventative maintenance tasks. We have experience in dealing with situations where no drawings or manuals currently exist and can reverse engineer those documents through site visits from highly experienced field personnel.

ABOUT NEAL SYSTEMS INC

Founded in 1986 by David Neal, serving first as a manufacturer's representative, NSI quickly expanded its distribution throughout the Northeast including Pennsylvania, New Jersey, New York, Maryland, Delaware, West Virginia, Virginia, and Washington, D.C.. Establishing warehousing capabilities for commonly used products enabled NSI to provide rapid product solutions for both routine and emergency customer requirements.

NSI's success is built on the people who work here. Our team of dedicated employees provide a full range of products, product integration, and field services spanning instrumentation, control and data acquisition systems, wireless networks, industrial Ethernet networking technology, and security systems to meet customer application needs across a broad range of industries.
