Fall Edition 2019

BREAKING DOWN THE WALL

We are expanding! Neal Systems is tripling our office space in order to house our growing service, engineering and training groups. Our expansion will add a technical training center for hands-on factory training, an extensive warehouse of stocked items, and new offices for our growing staff!

Our inside sales support team decided to get to work and knock down their own wall!

SURFIN' THE NSI WEB

Neal Systems is transforming our website into a one-stop shop for every customer.

Did you know you can request a quote, schedule service and request an RMA directly from the NSI website? The Neal Systems Inside Sales Support and Customer Service team wants to streamline your experience. When you use the NSI website, your requests will be prioritized and responded to quickly.

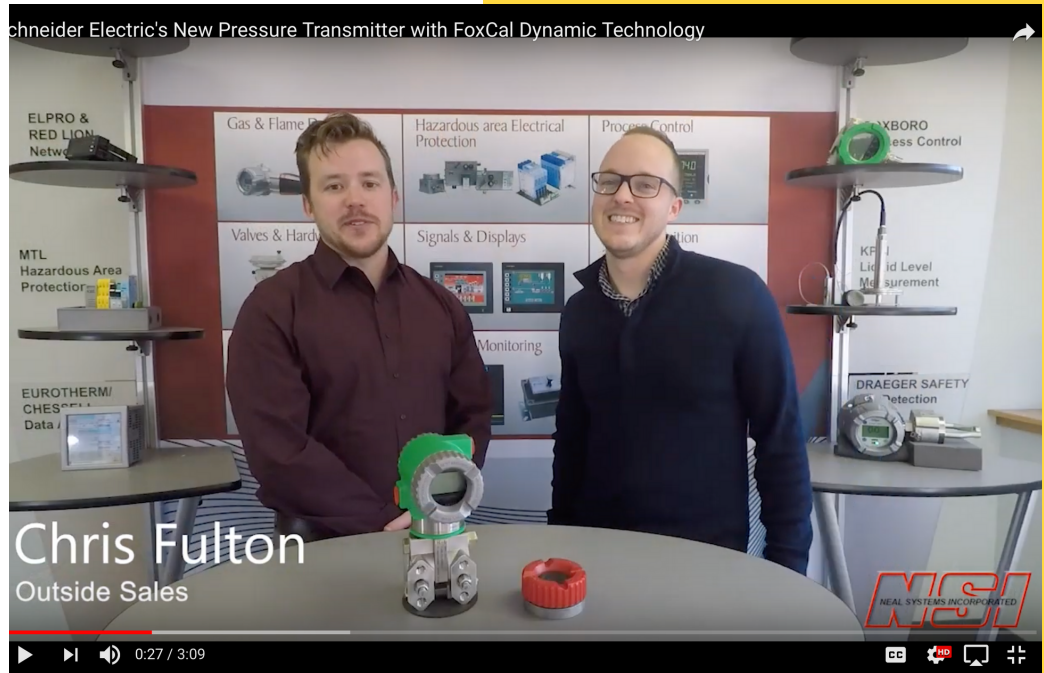

The NSI website also offers a Eurotherm and Hitech Webstore for fast and easy configuring and purchasing.

ENGINEERS TO INFLUENCERS

The Neal Systems Application Engineers are taking over YouTube. Our team is using their expertise to create not only informational and technical videos, but also highlighting some of the more obscure and interesting engineering tid-bits from the industry!

Would you like a video tutorial for one of our products? Would you like to learn how to configure or install a product? Send us a message and let us know! Don't forget to subscribe to the Neal Systems channel!

THE NEAL SYSTEMS LINES

Neal Systems offers a full range of products, which has recently grown to include Canty, Samsara and Arca Valve! These three lines fit seamlessly with our current offerings to round out our total product solutions.

Neal Systems not only represents and distributes these lines, but our engineers are the technical experts in their field on these products. Our in-house experts can help you spec, troubleshoot, and service your specific application and product needs.

For more information on individual lines and products we carry - visit our main page [here!](#)
