## Determining Your Vibration Alarm Levels Using a Severity Chart

These charts are used for determining how severe your vibration is and may help you determine your alarm levels at your facility based on standards that are generally accepted across your industry.

### NSI Holiday Party

The team at NSI embraced our new virtual lifestyles and enjoyed our holiday party this year all together

over video! We had video guests, games, and some classic NSI shenanigans!

### **Welcome Ed Owens!**

Neal Systems is happy to announce our recent acquisition of Demco Sales. This acquisition, effective January 1, 2021, has added Ed Owens to our NSI team and expanded our expertise in a variety of industries. Ed has 20+ years of experience and has been working closely with our team at NSI for several years, which has made this transition seamless.

## **Introducing new product: Polytron 8900 UGLD**

The Polytron 8900 UGLD contains an ultrasonic sensor that detects gas leaks regardless of environmental influences, even before a gas detection sensor detects a critical concentration.

The Polytron 8900 UGLD improves safety and efficiency and has a flexible installation with intrinsically safe remote sensor casing with cable also available. The sensor lifespan is 10+ years, which means no sensor replacement in the meantime...
