DRAEGER SENSOR DIAGNOSTIC DONGLE

A number of years ago, our engineering team was asked to help a company that was doing full-system calibration checks once a week on over 125 sensors around their facility. The maintenance team was fighting with the safety team, since the safety team wanted to add many more sensors, but the maintenance team was struggling with keeping up with doing full system checks once a week...

WHAT IS UNIQUE ABOUT DRAEGER SENSORS?

One of our engineers was recently asked "***What is unique about Draeger Sensors?***" by a chemical company evaluating the technologies from various gas detection companies. The engineer talked for about 30 minutes about all of the special capabilities and design features of the various Draeger sensor, and the company who had asked the question was blown away..

Do you know about the services and solutions we

Calibrations, configurations and site surveys are just a few of the offerings

offer?

available through our service and systems group... [View our other offerings here!](#)
